

Galvanized Surge Bins (continued)

Advanced Bulk and Conveying, Inc., square galvanized storage bins are an efficient and convenient system for storing bulk materials. Their wide design, 6 ft. 3 in. square, gives the advantage of more capacity with lower overall height. The hopper is 14 gauge galvanized steel with a 60 degree slope, legs are 3" x 1/4" angle and sidewalls are constructed of 16 and 18 gauge galvanized steel.

Model	Cu. Ft. Capacity	Overall Height
6FD5C	270	12' 6"
6FD8C	415	16' 6"
6FD10C	500	20' 6"
