

Filter Maintenance

ADVANCED
BULK & CONVEYING

Bags, Cages, Cups, Venturis, Cartridges

Advanced Bulk and Conveying, Inc., provides quality replacement parts for most types of central filters, filter receivers and dust collectors using bag and cage filtration systems. We handle a wide selection of items to repair, maintain and upgrade your filtration equipment.

FILTER CAGES

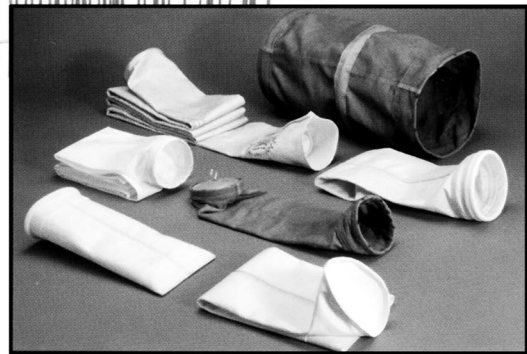

- Top or Bottom Load
- Variety of Lengths and Diameter
- Carbon Steel, Galvanized or Stainless Steel

FILTER BAGS

- Polyester, Nomex, Acrylic, Fiberglass
- Polypropylene, PTFE Membrane, Gortex
- Variety of Finishes
- Custom Sizes

OTHER PRODUCTS

- Cups and Venturis
- Compressed Air Valves
- Blowdown Controls - Single and Multiple Shot
- Differential Gauges

Pleated Filter Elements

High air-to-cloth ratios can easily be improved by replacing conventional bags and cages with pleated filter elements designed to fit existing cups and venturis. One piece design eliminates bag and cage while increasing available filter surface area 2-3 times versus a standard filter bag.

Features and Benefits:

- 100% Spun Bonded Polyester Media with 99.99+% Filtering Efficiency
- Resilient Urethane Top Ensures a Superior Fit for an Air Tight Seal
- Specialty Finishes Available
- Reduces Air-to-Cloth Ratios Dramatically
- Surface Filtration Reduces Operating Pressure Differential
- Requires Less Compressed Air Pressure to Pulse Clean
- Shorter Length Keeps Filter Out of the Inlet Gas Stream
