

Sight Glasses

Sight glasses allow a clear look at material flowing through the convey line. Standard unit comes with aluminum ends, acrylic clear section and grounding strip. Pipe sizes up to 6", pyrex clear section and steel ends are available upon request.

- Clear look at the material flowing
- Smooth "straight-thru" interior
- Air-tight seal
- "Sighting" section can be furnished in Pyrex
- A grounding strip, permanently attached, eliminates the build-up of static electricity
- Fast, easy installation
